

DOOR CLOSERS

NEW★STAR
SINCE 1919

60series

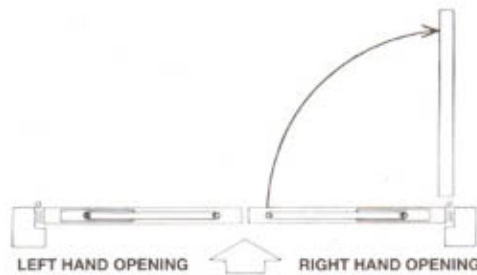

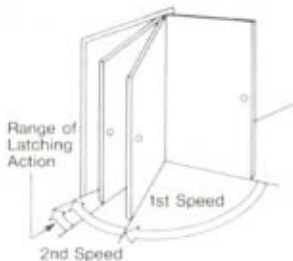

Concealed Type with Single Sliding Arm

Door Closing Speed

Speed Adjusting Valves

Trouble-free adjusting of speeds by simply turning the speed adjusting valves to the left or right.

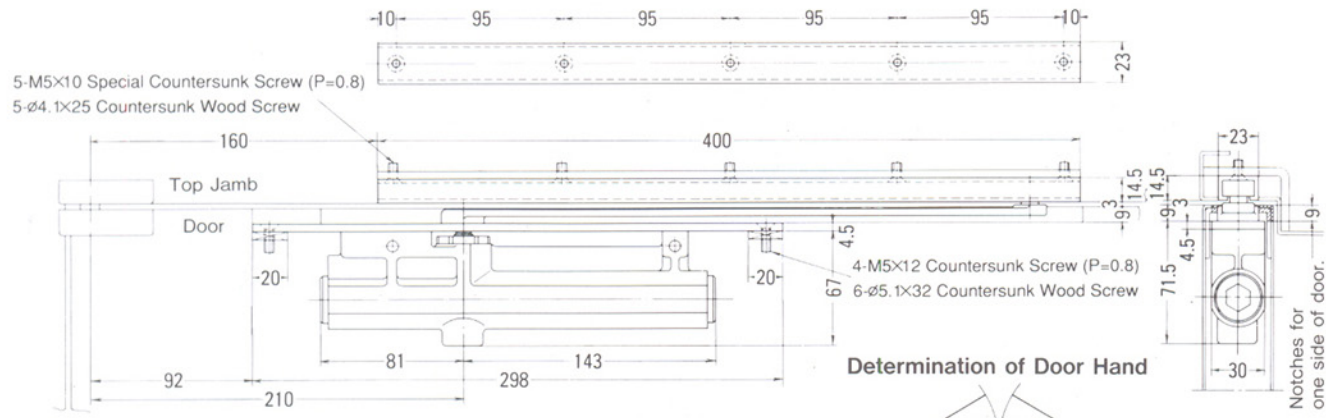

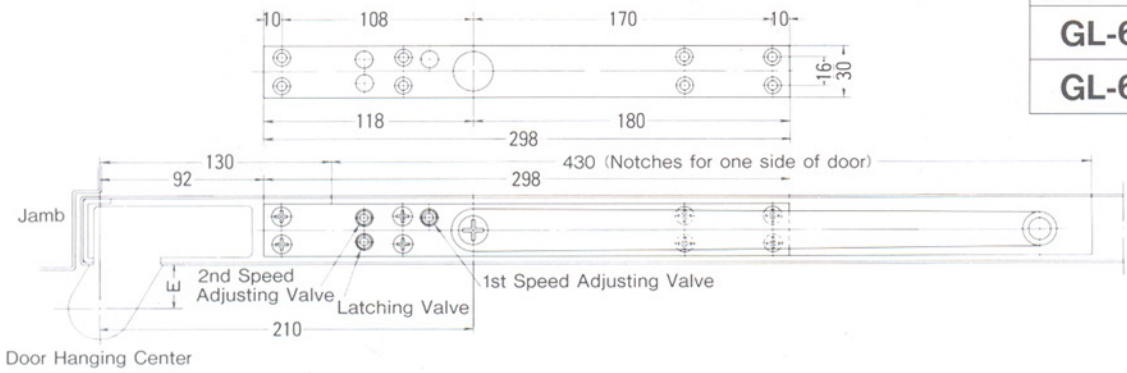

- A thin concealed-type door closer.
- The main arm slides in a guide rail attached to the top jamb.
- A check in advance is necessary to determine whether size of the top jamb is sufficient to accommodate the guide rail.
- The hand of the door should be determined before installation, since this model comes in two types, for left hand doors and right hand doors.
- A 3-valve function allows easy adjustment of the door closing speed.

	Without Hold-Open	With Hold-Open	Applicable Door Dimensions DW×DH mm	Maximum Door Weight kg
Single Sliding Arm Type	GL-62N	GL-162N	900×2100	45
	GL-63N	GL-163N	950×2100	65
